RESEARCH PLAN FORM

Please specify

- International Relations Program (IRP)**
 International Development Program (IDP)
 Public Management and Policy Analysis Program (PMPP)
-

One of the important requirements to be fulfilled for obtaining the Master's degree is to write a Master's Thesis of high quality. Given the limited amount of time, therefore, it is crucial that you come to IUJ with a clear plan for the research project you will undertake for your Master's thesis. Describe your research plan as carefully as possible, including the **subject, motivation** and **goal** of your research project, and attach it to this form.

Readers of your research plan may not specialize in the subject of your interest. It is to your advantage, therefore, to describe your research plan in such a way that it can convince non-specialists of its significance. The research plan, including the title, must be **typewritten in English in approximately 500 words, not exceeding 700 words**, on separate sheets of paper and prepared without the assistance of any other person. (You may briefly describe another possible research topic on a separate sheet if your research interest is much broader than the one indicated in your research proposal.) Your research plan may not be given any credit if it exceeds 700 words.

Sign and date this form. Attach your research plan to the back of this form. Your research plan along with this form must be submitted to IUJ together with other application documents.

I hereby submit my research plan as required and certify that I have received no help whatsoever in writing the plan in English.
