August 2015

Tuition Changes starting in September 2016

International University of Japan

This is to notify you that the International University of Japan (IUJ) will change its tuition fees, effective September 2016 as shown in the tables below. The new fees shall be applied to students enrolled in or after September 2016. The fees for current students will remain the same during their period of enrollment.

With the changes in tuition fees, IUJ will further enrich its scholarship support to students as well as improve various aspects of its educational environment. IUJ would also like to continue our efforts to absorb increasing costs of university operations in recent years due to such factors as the depreciation of the Yen and increased consumption taxes in Japan.

Your kind understanding on this matter and continued support is highly appreciated.

1. Tuition fees for the PhD Program: No change

2. Tuition fees for the Master's Programs   (Unit: Japanese Yen)

- New -

Graduate School	Program	Tuition fee/year	Spring term	Fall term	Winter term
International Relations	Intl Relations (IRP)	2,100,000	700,000	700,000	700,000
