

How to install STATA14 on your personal laptop (For Windows)

Conditions:

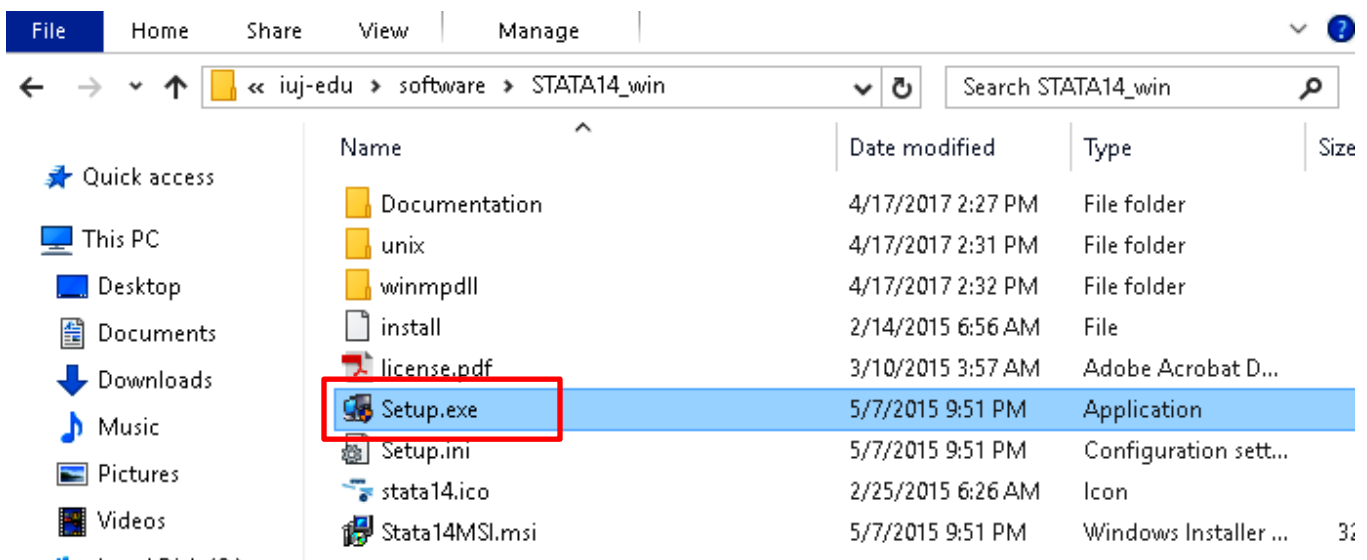

- You can use the program until you leave IUJ. When you graduate from or quit IUJ, **you must uninstall the program before you leave the campus.**
- This service is provided only to use the courses which requires STATA.
- You are allowed to use the program not only on campus, also outside of the campus.
- Students need to submit the application form to use STATA to the MLIC office.

How to install:

1. Access **iuj-edu > software > STATA14_win.**

2. Double-click **Setup** in the folder.

3. The "Open file - Security Warning" message appears, click **Yes**.

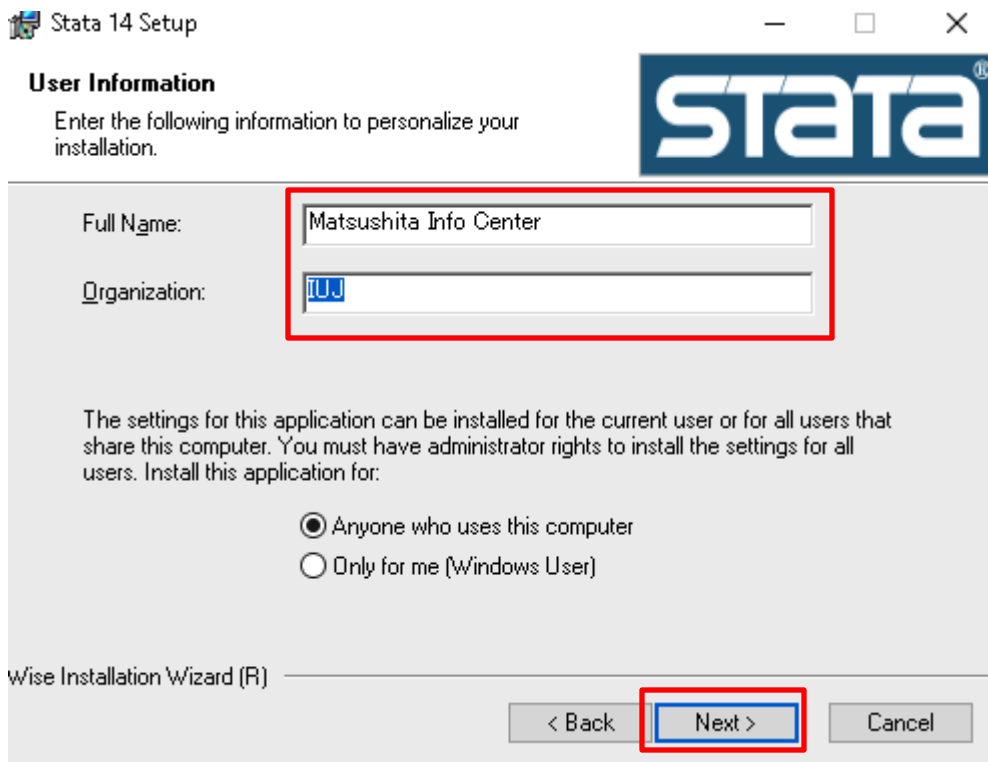

4. Click **Next**.

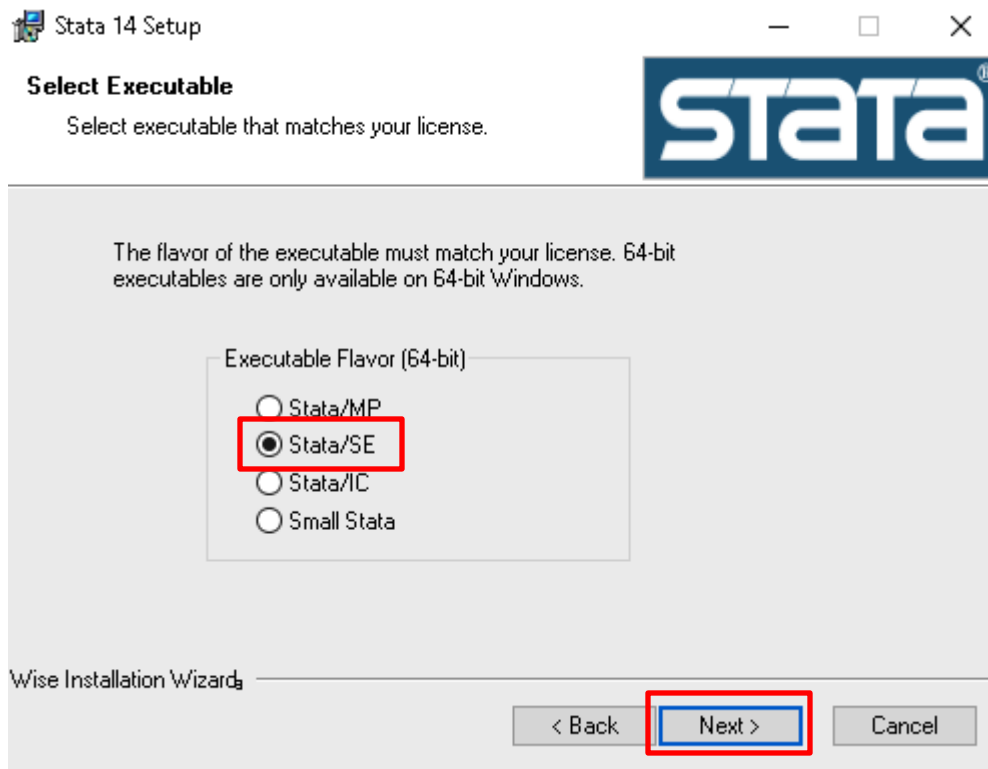

5. Check "I accept the license agreement" and click **Next**.

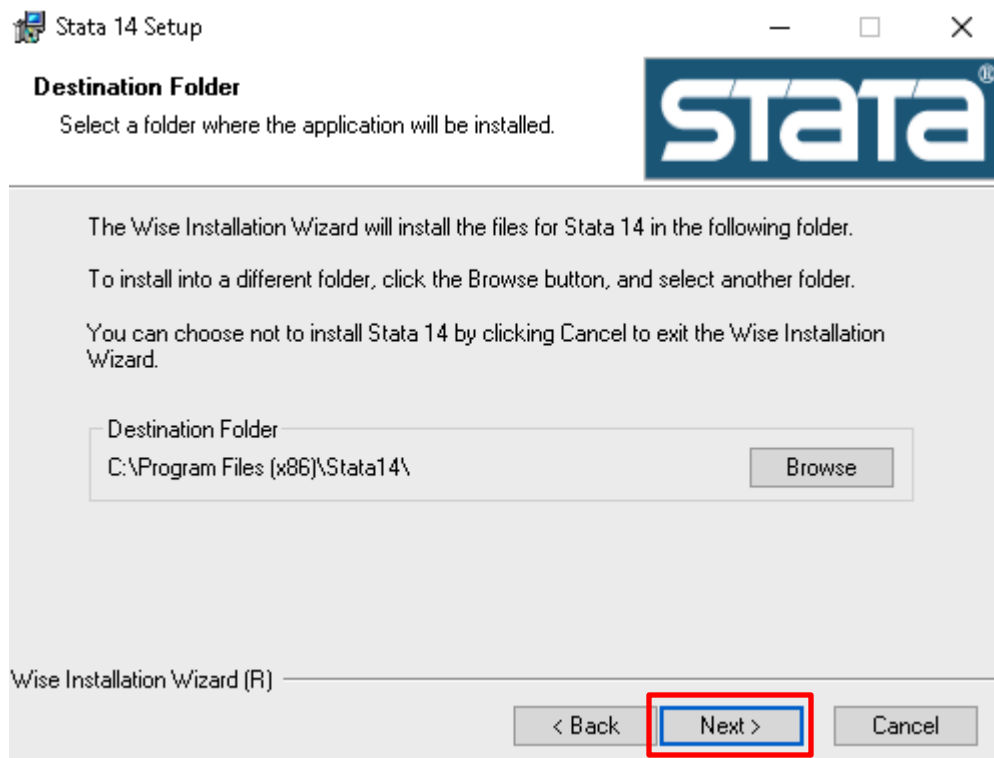

6. Type your name and "IUJ" for Organization and click **Next**.

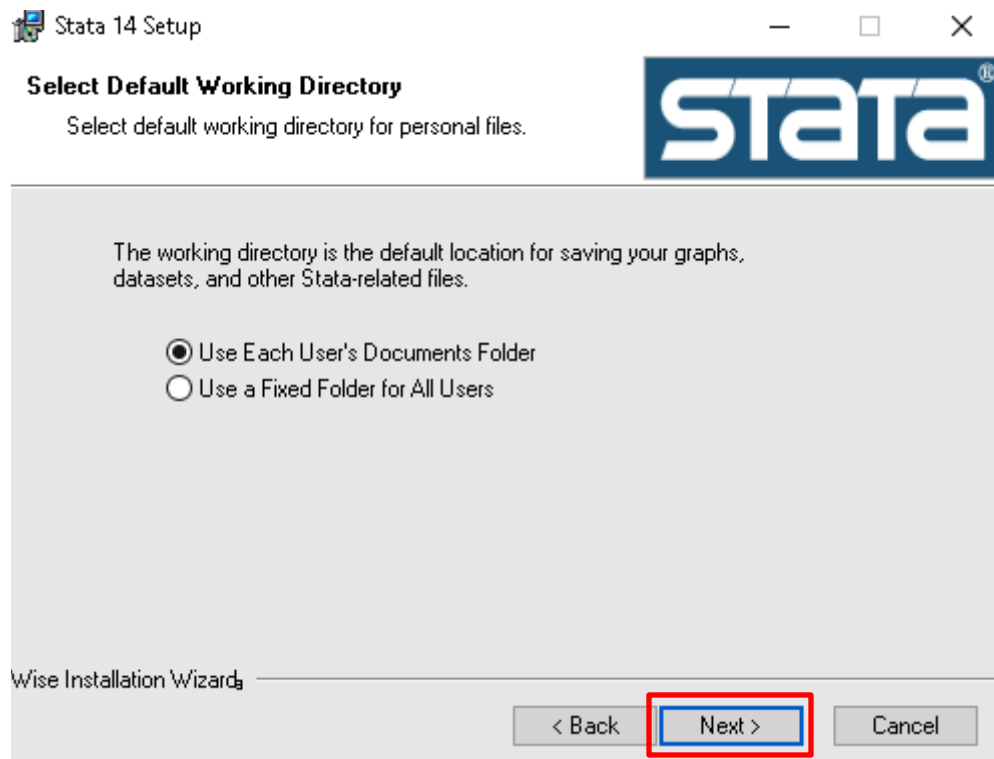

7. Select **64bit SE** and click **Next**.

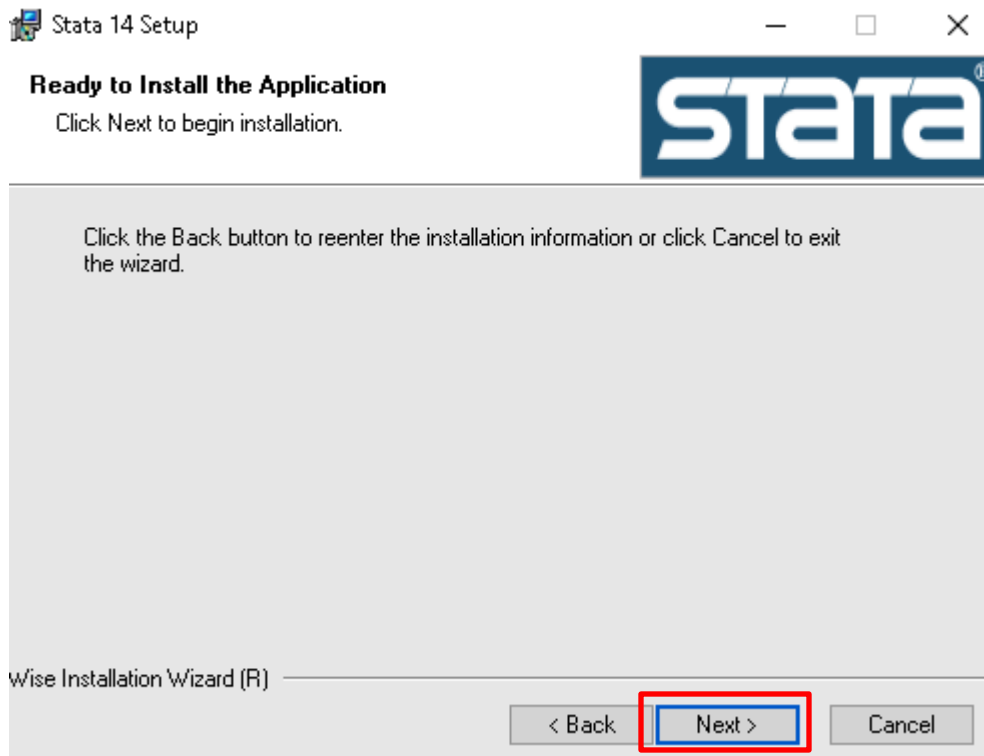

8. Click **Next**.

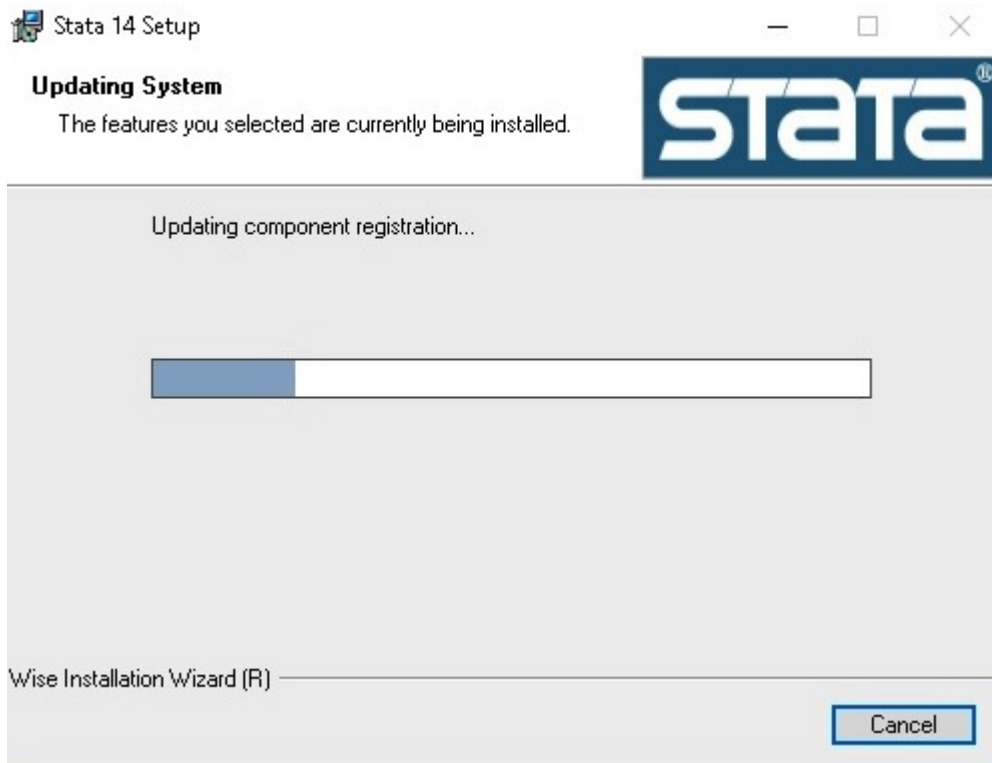

9. Click **Next**.

10. Click **Next** to install.

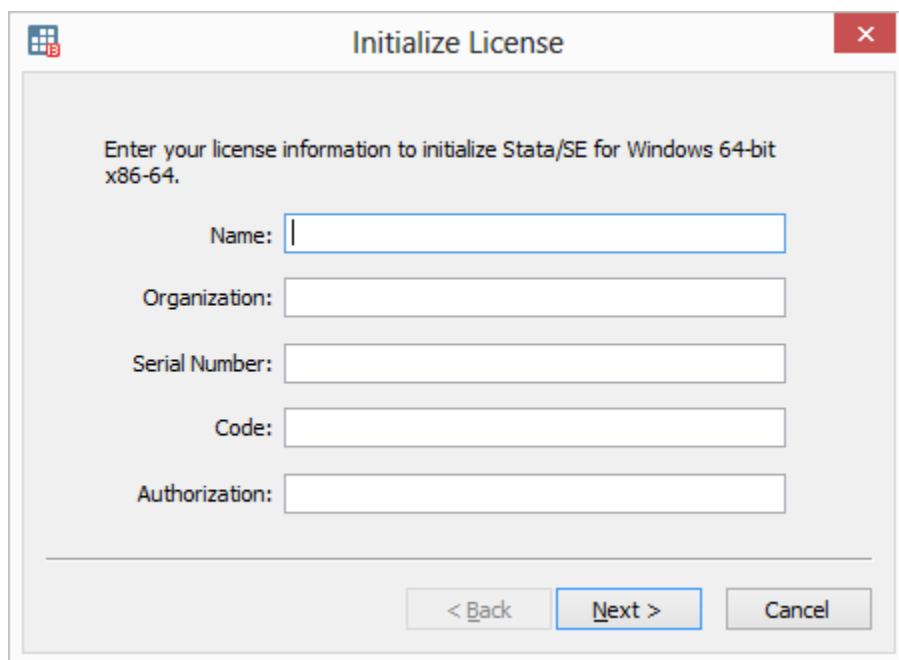

11. Wait until the installation is finished. (It will take about 5 min.)

12. Click **Finish**.

* The first time you start STATA, you will see the window as below. Please bring your laptop to MLIC to activate the license. You cannot use STATA without this license activation.

Note: If the following window is appeared when you open STATA, please update the software.
