Dear GSIM Students,

We would like to inform you that, starting from the 2024/2025 academic year, **a transportation fee of 3,000 yen** per student will be charged for any one-day field trips conducted outside Niigata.

The rising costs of transportation have significantly impacted our ability to organize these trips. However, we believe they remain valuable opportunities for you to gain firsthand experience.

We appreciate your understanding on this matter.

Please note that participation in these field trips is entirely optional and will not affect your course grades. Also, this fee applies to GSIR students who join field trips organized by GSIM.

Best regards,
Haruka Hobbs
Office of Academic Affairs
