

Special Summer Program 2020: Special Research Seminar

Your Name: Tang, Cheng-Tao

Research Seminar on Some Specific Topics	
Description	<p>The topics of this research seminar mainly focus on applying quasi-experimental approaches in developing contexts. Specifically, the contexts include the implementation of conditional cash transfers by randomized trials, policy revision of women birth award criterion by specific parity (birth order) and the effect of pro-natalist policy, and policy revision of cityhood conversion threshold and the effect of fiscal decentralization.</p> <p>A useful reference will be Gertler et al. (2011): "Impact Evaluation in Practice", published by the World Bank.</p>
