

Special Summer Program 2020: Special Research Seminar

Your Name: Shugo Shinohara

Research Seminar on Some Specific Topics	
Description	<p>I will present my ongoing research titled “Government Regulation and Neighborhood Organization: A Multilevel Analysis.” This seminar will be held on a day of August and open to all IUJ students. In this seminar, I will first explain the basics of multilevel analysis (hierarchical linear modeling). I will then present my research which applies this method to analyzing the associations between residents’ collective action in neighborhood organizations and local government regulations.</p>
